
Nanda Kumar

President and CEO

SunTec Business Solutions

Nanda Kumar is the Founder President and CEO of SunTec Business Solutions, based in Trivandrum, India. He has done his Masters in Physics, and a Masters in Management (Finance).

After a five year stint in the Public Sector, he set up a venture - SunTec Business Solutions. Over the past seventeen years, he has built SunTec into one of the more successful, Enterprise software product companies. Today SunTec has grown to a 400 member organization with offices in the US, UK, Germany, Singapore and Dubai.

Nanda Kumar is an expert in the transaction pricing and billing space. He conceptualised a horizontal billing platform, flexible enough to address pricing and billing requirements across industry verticals.

Relationship-based Pricing – an idea pioneered by Nanda Kumar, was well endorsed by leading analysts across the financial services industry. Four of the world's top ten banks have implemented the solution and today, SunTec is considered a leading solution provider in the BFSI domain.

Nanda Kumar started SunTec developing the product, – as a technologist, but he has evolved into a business leader driving SunTec's Strategy Management and Business Development.
